

CYLINDERS-TANKS

# Industrial Manipulators

Dalmec offers a range of tooling heads for the “weightless” handling of cylinders - tanks.

Simple to use, they allow the operator to move cylinders-tanks quickly, accurately and safely throughout the working area.

These manipulators have been custom-built, with specially adapted design, dimensions and picking systems to suit the specific requirements of the users and the various environmental conditions available.

# CYLINDERS-TANKS

Partner PRC column mounted Manipulator, with suction cup tooling (Venturi) for gripping and manual rotation of boilers.

Manipulator with suction cups tooling (Venturi) for gripping and inclination of tanks.

Manipulator with suction cups tooling (Venturi) for gripping and handling of tanks.

Manipulator with pneumatic tooling for gripping and inclination of cylinders having different dimensions.

9715419

Manipulator with adjustable suction cups tooling (Venturi) for gripping and handling tanks.

9815991

9815991

Manipulator with suction cup tooling (Venturi) for gripping and releasing the tanks into the car.

9816639

Manipulator with pneumatic tooling for gripping and inclination of cylinders having different dimensions.

9816689

Manipulator with inflatable pads tooling for gripping one or two cylinders.
